

VELVET GEL & AQUA VELVET GEL

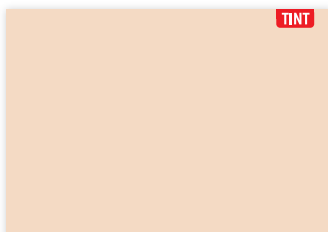

INTERIOR/EXTERIOR COLOURS

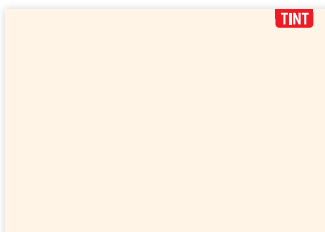

YOU CAN'T BUY A BETTER PAINT FOR LESS!™

VELVET GEL & AQUA VELVET GEL

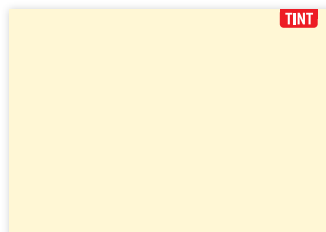

Excelsior® VELVET GEL is tough non-drip polyurethane enamel for use on virtually any surface suitably primed. Its non-drip formulation makes it easy to use, for even the most unskilled painter. It is a self-undercoating enamel thus reducing the cost and need for a universal undercoat. It also has unique properties that minimize sagging, a problem common with enamel paint.

LIMITATIONS

Cannot be applied directly onto Rhinolite or Gypsum Plaster. Use one coat of Excelsior® High Quality Pliolite Plaster Primer (solvent-based) & then two coats of Excelsior® Aqua Velvet Gel. Product needs a minimum of 14 days to cure fully (Longer in humidity and low temperatures). Minimum of two coats must be applied. Cannot be over-coated with some solvent-based products.

Excelsior Paints Velvet Gel range of paints is available ready mixed "off the shelf" in White, Black and the colours shown on this colour card. Excelsior Paints Velvet Gel range of paints may also be tinted to match any shade or hue of colour you desire from the Excelsior Paints Color Is Tint System™. Colours marked with "TINT" are colours produced using the Color Is Tint System™.

PLEASE NOTE: The Litho printed colours represented here may vary from the actual Excelsior Paints colours. Visit your nearest Excelsior Paints stockist to confirm your final selection. For colour consistency please ensure that batch numbers correspond on a particular job.
